THANKS!

At the close of our business year, January 31st, we cannot resist taking this opportunity of thanking most heartily our customers and friends of the season 1922-23.

It has been by far the most successful year in our young history—and as each year passes we realize just how much the feminine public appreciate this "Shop Where Ladies Shop".

We have no intention of try-ing to fest on past achieve-ments in style and value-giving but face this new business year with well-laid plans that we feel sure will

The same standard of quality which has established Cadillac as the leading fine car will be scrupulously maintained in the Canadian product, as the major units of the Canadian Cadillac such as motor, axles, transmission, etc., will be built in the Detroit Cadillac factories where "craftsmanship is an art and accuracy a law." Chief inspectors from the Cadillac Detroit factories will pass on the quality of every Canadian

The new low prices, made possible by the manufacture of the car in Canada, cause Cadillac to stand out even more prominently than ever as the preferred investment among select cars.

Cows' Milk Made Safe and Convenient

ARNATION MILK comes to you from Canada's dairy sections a poted for their rich milk and cream. The milk is carefully selected and tested by Canadina experts. About 60% of the water is removed and nothing added. The milk is then sealed in the container and starilized Canadion as just sower milk in a convenient, safe form.

It is absolutely pure. It keeps. It is rich enough to take the place of cream in tea, coffee, the By adding a little more than an equal part of water you get "whole" milk. Order several tail (16-oz) cana—or a case of 48 canador this convenient milk from your grocer.

TUESDAY, FEBRUARY 6, 1923

The consequences of the threataning war unds and international disturbances in the mar East have been so includely impressed upon that Labor that demonstrations took place in gland yesterday protesting against the citize ovement is being inaugurated in London in paration for the largest unemployed demon-tion that Great Britain has ever seen. Elay's cables and the Bonar Law administration fiff face a delicate and perpleting situation. The British Labor Party will oppose any al-sumpet of the Government to engage in a new rar and they have opined that the Frunch oc-upation of the Burk has created another Al-noydorpaine, problem which will ultimately ring about similar conditions which prevailed Europe at the outbreak of the world ward.

The waiting policy of Great Britain rela-ve to the movements of France, has been pur-lif to the majority of people. Many poli-tians and leaders of men in England have tak-the view, that, if France can afford to squanoney in the upkeep of a large army of t, at least of her debts. The moral effect the funding of the American debt is now un-ibtedly being felt by a heavily taxed Engich populace, as well as by those nations who problems, and when the crisis is over, it will likely be demonstrated, that the superior tatesmanship of the British diplomat has been ruly and significantly effective.

One of the emphatic policies of the re-

se coates debt could be paid, and it is intingular that the present Bonar Law Govint are now insident upon a similar to make the undertakers, whom they declare should be that the present Bonar Law Govint are now insident upon a similar to the undertakers, whom they declare should be that the present Bonar Law Govint who the Labor unrest in Britain and unawering determination of France to

Wanted—a cigarette that will stop burn for its connection with these systems of co-state marketing.

This idea of subsidizing community halls in the state of the properties of the prope unsound. It is obvious that Provincial funds that you have warmer friends than in winter. Inhould not be so diverted to 'individual and particular profit and it is high time to appear to be reported in the dividual and to report and the side so to that those synactices are discontinued. Emissaries of Hon. This economic waste from the contraction of the service of flict of interests is appalling and no class should suffer by a plea for privilege by one particular

class which seeks to impose their will.

Anyway, what especial experience have anyway, wast especial experience neve these organizers had in the export marketing of cheese—One gentleman who was recently selected to organize Hastings County for the Ontario Co-operative Products, has had local

experience it selling his product to the cheese buyers, but that rather limited knowledge would not appear to cover qualifactions for competitive export marketing—while sense of the other peatitions sho are of the came, do the cheese and their milk to a cheese factory, which is the ornatanting reason of this "natur-al marketing and their milk to a cheese factory, which is the ornatanting reason of this "natur-al marketing aversion" to cheese merchandis-ties?

PEDISTRIBUTION

Premier Drury has intimated that the re-distribution bill will jubt be included in the menu dispensed by his Commission Govern-ment this seesion. This fact would seem to ex-pose his hairsecrity of the United Parmers as a political party and is directly in contravention of thigh absurd claim that the U.P.O. is a non-part system of government. Hon. Mr. King is at least anddd in his re-

distribution plan insanuent as the speech from the Throne intimated that the bill will likely be brought down this session. He is playing safe, anywax as, unless the unforeseen happens, a Dominion election will not take place for two or three years.

LIFE OF HASTINGS COUNTY MAN SAVED BY DOG

Earle Eleott Falls from Sleigh and Lights on Dog Instead of Stump

Earle Elliots of Tabernacle, in this County, while hauling wood, met with a hard accident. The sleigh suddenly slowed and he was thrown off the load. A dog which happened to be following caught the full weight of the man and saved a bad injury, as a jagged stump was in line with his fall. He is recovering.

For many centuries, the progress of civilization was hindered by the primitive methods of production; and the vast opportunities of world commerce lay dormant, avaiting the development of man's

ingenuity.

With the 19th century came the awakening and the great inventions utiliting steam, and electricity galvanized the world into a throbbing, energetic universe of production. It was the Spirit of Invention and the Birth of Efficiency.

SYSTEMATIC SAVING

For a number of years efforts have been made to impress upon children the importance of saving. There are those who have been of saving. There are those who have been taught it at home, where they have their small banks, but through achool channels there has been interest awakened in new fields by the smoorraging of bank deposits, the same as maintained by their diers. The idea is an ex-cellent one and it is gratifying that it has tak-en such a hold throughout the country. It such a hold throughout the country. It ams getting started in the way of systematic ing at a time when its value is going to be elibly impressed upon the minds of those of are certain to benefit from it in the years come. It is a desirable offset to that easily to come. It is a desirance outs. cially among those who have no reason to

It is evident that there is still a large field It is evident that there is suit a large neight for the extension of the idea, but insamuch as the number of pupils enrolled as savers is in-creasing year by year it becomes evident that there has been a rapid extension of the plan and an appreciation of the merit involved. And better yet when it is shown that the

systematic savers are opening new accounts continually in the Penny Banks there cannot fall to be set an example which is going to use the desire to do likewise in the hear as great an opportunity to save as some of the others. It means getting the children started in the right way and at the right time of life to get

THE QUITTER

When you're lost in the Wild,
And you're lost in the Wild,
And you're scared as a child,
Ap Death looks you bang in the eye,
And you're sore as a boll,
It's according to Hoyle
To cock your revolver and
But the Code of a man
But the Code of a man
Says: "Field all you can"

. Says: "Fight all you can!" And self dissolution is barred In hunger and wos, Oh,

You's "Mich the game?"
You's "Mich the game?"
You's "Mich the game?"
You's "Mich the game?"
You "had a war deal?"
I know—but der's general sight!
It know—but der's general sight!
It have being away
That will vin you the day
That will vin you the day
Just dawn you your artiJust dawn you your artiJust dawn you your artiJust dawn you your artiJust dawn you great grid.

If went you want to be a series of the series

It's easy to cry
That you're beaten—and die.
It's easy to crawth and crawl;
But to fight and to fight
When Hope's out of sight—
Why, that's the best game of them all!
And thought you come out.
All bruken and beaters and scarred,
Just have, one more try—

ST VALENTINE

By Molly Bevan, Hamilton
How many hundred years have rolled away,
Since Valentine, a priest of sactiont Rome,
Tended the garden of his simple home
And, smillighty watched the children at their play;
Each troubled heart, each little care, he undered
And people called him, "Walestine the Good."

So passed his life in helpfulness and love, Until one morning in the fountain aquare, The children missed his smile, his cheerful sir, And, questioning, were told, "He dwells above, Lo i all the city mourned the good Divine, And, people said, "Let him be called 'Saint tilne."

So many hundred years! and yet his fame
Has lived in ancient contons to this day,
Youd essayes and gifted blossom say
All given in memory of his golden name.
Who could havefold that simple heart of
Would see much love bequesth, Saint Vale

Picked Up Ashore

New York, Feb. 15 .- The Italian Steamer Moncenisio, from Norfolk Va., is sinking about 500 miles east of Cape Henry. Va., says a wireless message picked up here

to-day.

Seattle, Wash., Feb. 15.—Peril to the British Steam ship Tuscan Prince, somewhere in the North Pacific was indicated at 4.10 o'clock this morning when the Navy, Radio station here caught part of a message. It said "S. O. S. Tuscan Prince ashore position", at this point the vessels wireless set apparently invike down.

A crisis in Jaffa orange market is announ ced. So long as Seville remains tranquil the season's marmalade is not imperiiled.

That story that Germany's troubles had driven her to drink and that she had bought 2,400,000 bottles of rye from Rusia, turns out to be an error. It was bushels, not bottles.

Red theories are fanaticism, and tend to cure themselves; but red tape is stupidity, and hopelessly chronic.

These alippery streets are hard on those who have not learned trick falls which protect hip pockets and other breakable parts of the anatomy.

Time of Day Calls Slow Up Service

> The practice of asking Central for the time is interfering with your telephone service.

One hundred and forty thousand such calls a day in Ontario and Quebec are a serious drag on the legitimate demands of the service.

Speedy and accurate connection is made difficult by the load imposed by these "time of day" calls. Will you help Central to give efficient service by refraining from asking the time.

In the interest of everybody's telephone service, our operators have been instructed to discontinue giving the time of day on and after Monday the 19th inst.

London. Feb. 17.—Bitter fighting is in progress in the Argina mountains of county Caven, where General Bofin, the ir regular leader, and his bride are spending their honeymoon in a cave, from which the bridegroom directs the operations of the rebel band against the Free State troops, say an Evening News dispatch from Belfast yesterday. The Free Staters are gradually closing in on Bofin and his followers. The irregulars are known to have lost two men killed and seventeen wounded

Dublin, Feb. 17.—The offices of the women's organiza-tion supporting the Free State government, located in Ru-land square, were wrecked by the explosion of a mine yester-day. The offices of the cemetery committee, adjoining, were also badly damaged, while the windows of many houses in th vicinity were shattered.

Crazed People Were Trap ped in Their Cells—Ex-cavators Working in Rums To-day

New York, Feb. 19.—The New York State Anylam was swept by fire yesterday. Twenty-dive patients and nurses pershed in the flames and over 1,800 panie strick-en insane people were driv-en on the streets by the flames. Most of the dead were trapped in their cells, for it was the homicidal ward in which the most dangerous patients are cared for that was completely destroyed by the fire. Ter-ror reigned among the 7,000 patients in the other wards and it was with the utmost difficulty that police and firemen removed the endan-gered patients to the sum-mer asylum on Long Island.

Massed Selling By Long Distance

Right now, all over Canada, salesmen are making appointments with customers in distant cities, forestalling competition and getting the orders on the books.

At no time in history has it been more important to the business man to be in many places in one day. The more places he can be in, the more goods he will sell.

No man can be in two places at once, except he use Long Distance.

In many cases the line that separates the efficient from the inefficient is the thin copper line of Long Distance.

Multiply your contacts — Long Distance does it!

Canton Crepe Frocks HAVE NEW NOTES

Numerous new wagaries of styles find exterission in the Canton Crops Frocts for Spring. A model in the Canton Crops Frocts for Spring. A model in Japanel and large black and white buckle. By way of contrast, is an African Brown Frock with kinnon-cut bloque of figured crops. Another style has a wrap kinnon style and embreddered in colors. They models are all very interesting.

\$21.50, \$27.50, \$28.50, \$29.50

Flannel Frocks are Practical and Pretty

Picture one of Scarlet, the skirt knife-pleated with collar, cuffs and belt of wool sponge in Sand. This style is also carried out in Rust. while Earth Brown is the color chosen for a braided model trimined with Sand colored fiantel. There are many styles from which to choose and the sizes are for Misses and Small \$11.50-\$23.50

Children's Flannel Dresses are Practical

And the styles are very new. One little frock has a Navy pleated skirt and Sand colored blosse with Navy pipine. This style is also made up in Burnt Orange and Sand, while another has a pleated skirt of Black and White chees another has a pleated skirt of Black and White chees are very attractive. Sizes 8, 10, 12 yrs. \$1000, \$11.50 \$12.50

Most Interesting are the New Ratines

In the plain Ratines and the Sylk-Eponges with its narrow silk like stripes the colors are ravishing. Sand, Mauve, Lemon, Aprico, Bose, Pinean, Delfr and Sky Biles are some of the shades. Knit Eponge features somewhat similar colorings with a narrow stripe of contrasting color introduced. 36" wide \$1.00-\$2.50

TO BRANCE OF BRANC

This experiment will astonish you. Take an SMP Enameled Ware Sauce Pan and an all-metal, sauce pan of equal size. Into each, pour a quart of cold water. Put on the fire at the same time. The SMP Enameled Ware Sauce Pan will be boiling merrily when the water in the other is just beginning to simmer!

This means a saving of many precious minutes every time you boil anything. In a year's fime, boil anything, in a year's fime, your feel pill! Why waste fail using all-metal pots and passes and cost less. They have failed and cost less. They and, with fair treatment, SEP. Enameled Ware will last a lifetime. Ask your feed histories, and the properties of the properties of

Happiness

is out of the question for the child who starts out in life handlcapped by poor or painful vis-ion and, therefore, has a constant and losing struggle.

To fully realize the far-reaching effects of Eye-etrain one needs only to remember how vital is the function of vision to every act, emotion and thought, owing to the eyes being in the closest connection with the brain—the seat of government.

Get the facts about your child's eyes, We can tell you. CONSULTATION BY

Some clubs have lack in gold.

In the last four years, the Cincimusti Beis have had phenomenal hek in getting great young pinyers. In fact the Beis' laws golden, and the last four great young pinyers.

Fat Dimeta, Pick Donalden, Harper, Bohne, Fonance and Fircill are a hige assertment to pick up for politicing and the Red did that very thing, for practically no onliky of cash was made;

John McGraw has turned up more star players perhaps than any other manager in the game, but he did not profit by it as he should have. McGraw always plays today's gains today and does not bother, about tomogrow. He didn't have time to bother with Rommel, Roush, Grah and a fock of others and he turned them over to others to be polished and brightened for the future.

Harry Grib, holder of the American light heavyweight champ-louable, is today the flocks of friends he used to have in New Perk with his food tastles in the ring. His action, in geografu, helding, elbowing, buttier, holding and hitting against Tem Glibbons, Geon Tunory and Temmy Louchrun were so flagmathly and openly a vi-olation of the rules that it is strange he was allowed to get away with it.

THE MOST PRECIOUS TYPE

A THE MOST PECCOUSTYPE

An interesting experiment is being conducted in a New York private school. Its thegrowth of the Most private school. Its thegrowth of the Most private school. Its thegrowth of the Most private was the school of the school of

theory on which these experienc The theory on which these experiences have been applied by the state of the state o cally. One merit of the scheme is apparent at once; it dispenses with the need of spending a year or two after graduation in accumulating, necessary incidental information that comes only with work itself.

These experiments seem to make a per-fectly natural approach to the child. A boy learns to throw a baseball by pitching stones at a free; he does not read manuals. Exper-lence, of course, is the real tutor of the hand hild who would be prepared for mental tasks ned-from the beginning ut application of them to positive cases com

The New York experiment probably ha The New York experiment probably has numerous counterparts. At any rate, it is th-teresting, as is any new departure that prom-ises improvements in what is frequently and correctly described as the most precious type of public service, teaching the child.

TUT-ANKH-AMEN CONQUERS THE CENTURIES

WHEN ENGLAND LOVED HONOR MORE

Mr. Winston Churchill has begun printing is war reminiscences. The question has been sided in Parliament whether it is proper for a abhest Minister to make disclosure of official screek. One of them, as now made public by fr. Churchill, covers the action to the British ralty in the matter of the German cruis-he Goeben and the Breslau. On the mornins, the Goeben and the Brealat. On the mion-go of August 4, 1914, a despatch came from the commander of the British feet in the key and the commander of the British feet in the key light under Probabilion. Well well; at times he-battle crudient Indominable and Indeetsty-bib. War was a virtual certainty. The ul-limitatism had gone to Germany. But was had not yet been declared; and though on a flash when you spill something on the table cloth. Join London the Goeban could have been sunk

PASSING COMMENT

Now York theatrical managers have decided to raise the curtains promptly at the time advertised. Such a sensible decision should be copied in Canada, where the practice of waiting for late company has been followed altogether too long.

The Soviet Russian government has declar-war on bootleggers and our Mr. Raney will be inclined to enzy the Bolahies some of the meth-ods which they will employ, including the fir-ing squad.

Canadian income-kax payers grumble over what they have to pay into the federal resaury but what would they say if they were held up as the British taxpayers are? In Britain, men of wealth are required to pay as much as in the same of wealth are required to pay as much as II Canadians were taxed at that rate, out of every hundred dollars of income they would be: obliged to hand over to the government \$\$51.26.

GREAT COMPLIMENT

DO IT NOW

In the mornings when children are in a hurry for school—at night after the skating party—or when guests drop in unexpectedly, Cowan's Instant Cocoa will prove a friend, indeed.

Before placing Cowan's Instant Cocoa on the market, careful tests were made as to its quality, flavor and solubility. It is a Cocoa that will make you ask for

more.

Perhaps no greater compliment could be paid to this new Cocoa, than to state that it is equal in quality and flavor to Cowan's Perfection; Cocoa, which has been widely used in Canadian homes for two decades. Instant Cocoa has the added advantage, however, of being made added advantage, however, of being made may boiling. See full directions on tin. Order a tin to-day and you will become a regular user of Cowan's Instant Cocoa.

The Outstanding Closed Car Value

The "Master Six" Five-Passenger Sedan 23-471\$2795

Measured by any standard you may choose and for every kind of motoring the McLaughlin-Buick Mastes Six five-passenger sedan is easily the outstanding value in a closed car; the body is by Fisher.

It is a handsome, richly appointed sodan; tasteful in the quality of its interior fittings and in the comfort-able luxury of its wide easy seats with their fine plath upholstery. Every driving convenience is found in this car—so perfectly arranged that every function is recorded before the driver's eyes and every control is at his flower form.

And in addition there is the dependable, enduring performance, the perfection in construction which secures Class A insurance rating, and the economical, satisfactory motoring that always has been so marked in the McLaughlin-Buick chassis and in the famous McLaughlin-Buick Valve-in-Head engine.

This beautiful sedan is snug and warm in cold weather but cool in summer because of the means provided for controlled ventilation.

GOVERNMENTS AND THE LOANING

BUSINESS

The report of the Commission appointed by the Manitoba Government to enquire into the operations of the Rural Credits Act has been submitted and it would appear that the Provincial administration responsible for the introduction of this system, has been ruthless-by condemned. It seems that, under governly condemned. It seems that, under govern-ment appertision abuse have copt into the sy-test, which in itself is reparted as sound, but, of. The feature which seems much detrinential by outstanding in the operation of a Government into or depents chome, it is fact that a credit bank; conducted by a government must inevi-tably become a political bank, ioning upon in-sulphase of the conduction of the conduction of the sale production of the conduction of the con-lably become a political bank, ioning upon in-mun, exerciting intensy in borrowing resulting in back and doubtful debts for the Province to in bad and doubtful debts for the Province to tarry. An over-extension of credit has taken place in Manitoba which will take years to

HERE AND THERE

THE TWO VILLAGES THE TWO VILLAGES

Over the river, on the hill,
Lieth a village, white and still;
All around it the forest trees
Whisper and shiver in the breeze;
Over it sailing shadows go,
Of soaring havk and screaming crow;
And mountain granzes, low and sweet,
Grow in the middle of the street.

Over the river, under the hill, Another village lieth still; There I see in the sloudy night, Twinkling stars of household light, Fires that gleam from the smithy of Mists that curl on the river shore; And in the roads no grasses grow, For the wheels that hasten to and fro.

In the village, on the hill Newer is sound of smithy or mill; The house are thatched with grass . Never a clock to tell the hours; The markle doors are always about, You cannot enter hall or hut; All the villagers lie saleep, Never agade to now or reap, Never agade to now or reap, Stern and idle and low they lie.

By HENRY L. FARRELL, United Press Sports Editor.

New York, Peb. 27.—She may not be a popular champion, but Mrs. Molla Mallory, the queen of the American tennis court, is a good sport.

If she did not have the reputation for being such, she might be thought rather scheming, in her sudden decision to go raming after her rival, Mile. Sunamos Leogien, this winter, instead of walting until next summer.

her rival, Mile. Suzanoe Lengten, into winter, instean or warming timest summer, however, may be regarded as strategic.

Wile. Suzanoe takes her five winter tournaments as a sort of social activities that enable her for tolleport her, new warnibbe and purious rondition leisurely for the hard summer campaign sinding at Wimbledon.

Windshord openition in the winter tournessentiality: Use fleaby Frenchi queen has always been so negligible that alse could recal in the exhibition of her charms and her rare said at stends.

The dashing Bosanne has been taking things even more easily that year. But an heart to look after now, and competition without the urge of strong exposition associations becomes a bore for the temperamental above.

All of a sudden, then up pope Mrs. Mallory with the announ ment that she is going to Dorope for the purpose of competing the same fire tournaments, and that she was not going to play Wimbledon.

Wimbledon,
While she would not admit of any personal designs, Mrs. Mal-lory did not deny the possibility of meeting the Freich girl in one of the five tournaments.

Mrs. Mallory has been planning for a long time to engage in the mid-winter classics, and it is not her faith that the Freech girl

Don't Take Chances With Your Glasses

When you had your eyes examined you likely took care to consult an expert. If so the greatest care was used in writing your pres-cription and in adjusting your glasses.

Yet glasses fitted perfectly may be made almost useless by unskilled reuseiess by unakilled re-pairing. Only an expert can be expected to do that work properly. When your lenses must be re-placed or your glasses repaired or readjusted you will ensure the same careful service you re-ceived when they were first fitted, by entrusting them to our Optical De-partment.

Present Day business is a battle of brains. The keen mind is the gold winter. Poor vision dulls the mind and handleaps the individual. Most of us—un-knowingly—have poor vision in some degree.

Know the condition of your eyes! Have them ex-amined now. Get the facts about your vision— eliminate handleaps.

Know that YOUR eyes are as efficient as they should be—and not hampering your mental and physical vitality.

DIFFERENCES NEEDING EXPLANATION

Although the scarcity of fuel has bee motorist as he sailed along the busy street, where the sailed along the busy street, obtained supplies of the coal they needed with title trouble or none, is indeed somewhat the sailed along the busy street, obtained supplies of the coal they needed with the sailed along the busy street, obtained supplies of the coal they needed with the sailed along the busy street. of a mystery, while their neighbors have lived constant anxiety ever since cold weather betirely empty. In the United States, it is under-stood that many cities bordering on the mine fields have experienced an extreme shortage with coal deposits right at their front door while cities, hundreds of miles distant, have

had plenty of fuel.

Between different retailers, too, marked dissimilarities of efficiency in keeping their customers happy have been noted, with admiration or indignation, according to whether their cusere lucky or unlucky. Some dealers against the storage of requirements when taking Spring orders and others suggest-ed that citizens avail themselves of the oppor-tunity to obtain delivery of coal during the r months.

An order or a contract in the coal business is a rather uncertain transaction. Dealers con-tract with coal agents for tonnage, but that does not necessarily mean delivery. The Czarlike position of the broker in the coal rade is rather obvious under such procedure and as a consequence the dealer is not in a position to

leville to obtain supplies of coal. At Picton, a bor and brought over two thousand tons of an-thracite into the town. This has been sold to nsumers and greatly relieved the situation there, in fact little soft coal has been burned in private houses in that town. Trenton has been fairly fortunate and, of course, Bellevillians have not frozen to death, but have squirmed through the winter so far, burning substitutes of all descriptions, and beyond a few and personal inconvenience, have not suffered so terribly. About the only additional dis-tressing feature locally, has been the terrible crimp which has been put into the pocket-book.

. In the meantime, citizens, are anxiously awaiting the appearance of a flock of robins, the April rains following the March winds, and the temporary discontinuance of such tongus twisters as Pocohontas, long-flame fire burning gas lump, mine run, and Susquehanna, Steubenville, Indiana bituminous. The major-

Stubenville, Indian bitumfous, mue run, and Sasyuchanas, with most of their adverse remarks are the student and the student student and the student st squeass are quicary squeened anyway. Reces-sity may be the factor causing this. It is highly doubtful if next season will witness an improv-ment and to avoid shortage, high price and in-convenience the coal situation should be tackled right away, without feeling of nervous dread curasthenic delusion.

PASSING COMMENT

The government's decision to tour France with Canadian products should meet with a certain measure of success. In these days of keen competition, the only successful nation is the one that seeks trade and is fully imbued with the belief that "it pays to advertise."
